

# About Us

All pupils S1-5 study core Religious and Moral Education. In S2 and S4/5, pupils can choose to study Religious, Moral and Philosophical Studies (RMPS) at National or Higher level.

# Why Choose Us

RMPS gives young people the opportunity to study religion, moral issues and philosophy. This subject is about people and the world we live in. RMPS encourages learners to develop skills which will support them in academia, their life and their future. Learners are encouraged to learn about and from the content covered. It is a subject which tackles some of the most challenging questions which humans face, as well as helping young people develop their opinions and understand how others think and live.

“

This subject holds a special place in my heart... it is like no other subject you will study.

## Our Alumni

RMPS has enriched my practice as a dental student by **fostering empathy**, improving **communication**, guiding **ethical decision-making**, and instilling a sense of **purpose**. It has helped me become a more **compassionate** and effective healthcare provider.

**JH Dentistry**

The knowledge I learned in RMPS has helped me loads at university – it's helped how I **analyse problems**; it provided me with the ability to see **two sides of an argument** and helped massively with my **essay writing skills**.

**CG- International Relations & Law**

**Forming my opinions** and being able to **articulate myself** properly has been invaluable.

**RH- Small Business Owner**

I would recommend RMPS to anyone who is **passionate to learn a bit more about our world**, different cultures and outlooks on life. **If I could do it all over again I absolutely would** and I cannot thank the RMPS department enough for the **lifelong skills and confidence** they have helped me build and sustain in my work.

**AB- Banking**

## Our Courses

### National RMPS

- Morality and Medicine
